## **Euro MP Philip Bradbourn hosts Burton on Trent Rotary Club in Strasbourg**

Conservative MEP for Staffordshire, Philip Bradbourn, recently hosted a group of twenty-eight members of Burton on Trent Rotary Club at the European Parliament in Strasbourg.

As well as various sight-seeing excursions, the group were able to view how the European Parliament works from the inside, observing a Parliamentary debate, enjoying a tour around the Parliament building, as well as taking part in a lively discussion with various leading MEPs from the UK, Malta and the Netherlands.

Mr Bradbourn, who is a Leading Member of the Transport Committee in the European Parliament, and co-treasurer of the European Conservatives and Reformists group said:

**“It was a pleasure to host a visitor group from the Burton on Trent Rotary Club. I believe that it is important for organisations and societies from the area to have the opportunity to see the work that we do in Strasbourg and how that work is important to the town at home. It also provides me with a further chance to talk to and engage with constituents face to face, something which I am always keen to do. The visit was a success and the members of the group found the trip informative and enjoyable. I look forward to hosting more constituency visits in the future as they are highly beneficial for everyone.”**
